Dear [redacted]

The General Accounting office has, with your assistance, for the past several years maintained the Congressional Information Sources Inventories and Directories (CISID) data base. The data base has been annually updated and maintained in central computer files for Congress' use in carrying out its oversight function. It also is used to publish the Congressional Sourcebook Series - Federal Evaluations, Requirements for Recurring Reports to the Congress, and Federal Information Sources and Systems.

We have just completed the 1984 update of the CISID data base. After publication of this data in the Congressional Sourcebook Series, we will no longer annually update the data base. As usual, we will send you copies of the 1984 Congressional Sourcebook Series as they are published. The information in these directories is also available on magnetic tape. If you require additional information, please call Johnny Bowen at (202) 275-9559.

I would like to thank you and those members of your staff who have provided information for this publication in the past.

Sincerely yours,

Kenneth W. Hunter
Senior Associate Director
